- [Connection of a scale model servo](#)
- [Reading out S88 bus from Ethernet](#)

## Firmware projects

Since version 1.5 there are some projects within a release. The projects are build from a common code base and project specific code.

In the version 1.5 the following projects exist:

Name	Description
<a href="#">IO</a>	This project has the typical Netzer properties from former versions. Not included anymore is the <a href="#">SPI Slave</a> functionality.
<a href="#">SPISlave</a>	This project has the <a href="#">SPI Slave</a> functionality.
<a href="#">erase_eeprom</a>	This project erases the Netzer EEPROM.
<a href="#">print_eeprom</a>	Simple command line program for checking and erasing the Netzer EEPROM.
